SUMMARY

Ambitious Front End Web Developer, focused on bringing clean, responsive and user friendly design to life with code. Highly motivated & enthusiastic. Looking for a company where she can keep growing and take her skills to the next level.

EDUCATION

Lambda School | Remote

Full Stack Web Development
Sep 2019 - August 2020

Estrella Mountain CC | AZ

25 credits towards Social Work Degree
Feb 2014 - June 2016

SKILLS

CSS, HTML, JavaScript, React, Node.js, GitLab, Github, Git, Gatsby, Sass, Less.

PROJECTS

Zac Harris Personal Website (click me)

Gatsby | Ghost CMS | Figma (work in progress)

Personal page built for future customers to schedule meetings and read blog post. Created with Gatsby and implemented design from Figma. Blog post will be displayed and linked from Ghost CMS.

Awesome Destinations (click me)

React | Sass (work in progress)

Looking for a getaway is hard. This website helps travelers see destinations prices and book their next awesome vacation. Built with React and Sass preprocessor. Looking forward on implementing booking and checkout working components.

Bio Bid

React | Bootstrap | GraphQL

Bio Bid connects clinical trial sponsors to the right service providers for their needs. Collaborated remotely with team of two UX/UI designers and one Back end developer to build web application for 3 weeks.

EMPLOYMENT

Illinois Rocstar | Front End Developer Intern

Sep 2020 - Present

- Assist Sr. Developers with debugging test cases, building new components, modify styles in application and apply accessibility requirements.
